Dear Editors,

We would like you to consider our re-submission for our manuscript, *Assessing sub-cellular resolution in spatial proteomics experiments* for publication in the Omics section of Current Opinion in Chemical Biology. We have addressed all the reviewers' comments, as detailed in our response and highlighted in this revision. In particular, we have expanded the conclusions (in red in the updated version of the manuscript) and added a new figure (figure 11).

Thanking you very much in advance for considering our manuscript.

On behalf of the authors,

Yours sincerely,

A handwritten signature in blue ink, appearing to be 'L. Gatto', with a stylized, cursive script.
